Families and Students:

This message is to inform you of the Banta Elementary School District (BESD) plan in the event we are notified that electrical power may be shut off to the local area by Pacific Gas and Electric (PG&E), thus impacting our offices and/or school sites. The BESD’s intended flow of messaging may be somewhat different depending on the needs during an actual PG&E Public Safety Power Shutoff (PSPS).

**ABOUT PG&E PUBLIC SAFETY POWER SHUTOFFS**
Due to the increased intensity and frequency of wildfires in Northern California, the California Public Utilities Commission has required that the electrical grid be powered down in areas prone to fires in times of elevated risk. In response, PG&E may, at times, implement an expanded PSPS that may impact areas of San Joaquin County.

PG&E has indicated it will provide notice 48 hours in advance of a planned power shutoff, when possible. Such notice will trigger the activation of the BESD's three-phased response plan. During this response, you can expect email, voice message, and text message communications through our PowerSchool contact system.

- **PHASE 1: 48 HOURS PRIOR TO PLANNED POWER SHUTOFF:** Early warning that PG&E has given 48-hour notification of a possible power shutoff and that we are monitoring the situation. Under most circumstances, the BESD will not initiate the closure of schools or offices based upon the 48-hour notification. At this point, please plan for school to continue as scheduled.

- **PHASE 2: 24 HOURS PRIOR TO PLANNED POWER SHUTOFF:** You will receive an update informing you if the power shutoff has been cancelled/postponed or if it is still scheduled. If the power shutoff is still scheduled, you will be informed no later than 5 p.m. if the BESD is planning to close schools the next day.

- **PHASE 3: DURING PLANNED POWER SHUTOFF:** You will receive daily updates until the power is switched back on and school is back in session and offices are back to business-as-usual. You will also be able to find updates at www.bantasd.org.

**POWER OUTAGE RESOURCES**
At the BESD, we believe that planning ahead is the best safeguard. With this in mind, we have provided more information and resources below to help you and your family prepare for an extended power outage.

- Make sure you can receive updated information from PG&E by updating your contact information at www.pge.com/mywildfirealerts.

- Talk to your medical provider about a power outage plan for medical devices powered by electricity and refrigerated medicines. Plan for batteries and other alternatives to meet your family’s needs when the power goes out.
• Review the supplies that are available in your household in case of a power outage. Have flashlights with extra batteries for every household member. Have enough nonperishable food and water stored to meet your family’s basic needs for at least a few days.

• Use a thermometer in the refrigerator and freezer so that you can know the temperature when the power is restored. Throw out food if the temperature is 40 degrees or higher.

• Keep mobile phones and other electric equipment charged and gas tanks full.

• Know how to manually open electric garage doors and gates.

For more information about how to prepare for a power outage, go to the San Joaquin County Office of Emergency Services webpage on preparedness at www.sjgov.org/department/oes/preparedness.

Thank you for your support during this process as we work to ensure our BESD community is informed, prepared, and safe for a power outage.
