ADVANCED PLACEMENT AGREEMENT

I understand that my child is enrolling in an Advanced Placement course. We have carefully considered this decision at home and understand that Advanced Placement courses require that students be self-motivated, mature, and have a desire to learn about the subject matter. We are also aware that it requires students to read the textbook at home, while taking notes or completing materials provided by the teacher. It is important for Advanced Placement students to keep up with their assigned reading at home and seek out help from the teacher if they are struggling. I understand this course is a full year commitment and required summer work will be handed out in June.
